

Welcome to the Psychiatrist Locator

The Psychiatrist Locator is provided by the American Psychiatric Association as a reference source of demographic information on individual member-psychiatrists in the United States and Canada who have elected to make their information public. It does not include all APA members; only those who chose to be included and provided information. It is not intended as a tool for verifying the credentials, qualifications, or abilities of any psychiatrist listed. Inclusion of a psychiatrist does not imply endorsement or recommendation by the APA or verification that the credentials and other information provided are accurate. Likewise, the omission of any individual does not indicate APA disapproval.

If you believe you need immediate assistance, please call your local emergency number or the mental health crisis hotline listed in your phone book's local government pages. If you do not live in the United States or Canada, contact your national psychiatric association or local mental health facility for information.

By using the Psychiatrist Locator you agree to the following user agreement.
